SUNAPEE — 1966

Reviewing the year 1966, it is conspicuous by the benefits derived from the capital expenditures authorized by the 1965 Town Meeting.

Specifically, the new Town garage is an addition which we can look to with pride. Not only its good design implements the town, but more important, it fulfills a long time need by providing a center for all of our highway equipment. It is self-evident that with the expanding scope of this department, that it would be working under a severe handicap without this facility.

Certainly Hose #3 has upgraded fire protection in the Georges Mills area by the completion of their new station just off Route 11. With the added facility of the supplanted truck of the Sunapee station, and upgraded with a rebuilt 500 gallon per minute pumper, the area and the town has made a good gain.

Civic improvements were many during the year. The last building of the Hame Shop group was removed, leaving a gaping foundation hole where it formerly stood. Our highway department, working with funds voted at the 1966 meeting have filled and graded this area to the point where it is no longer an eyesore, but is nearly ready for landscaping. We believe that eventually this area will be a valuable asset to the town.

Our civic organizations have contributed much to making Sunapee a better place to live in. The Floral display, provided for by the Sunapee Woman's Club and members of Lake Grange at the new parking area on River Road was a decided addition to that area and brought much praise from strangers and guests of the town. Too, the flower boxes provided by the generosity of Mr. Adam Bridge on the new wall at Cooper Square.

Also the new flag pole at the Information Booth so kindly given to the town, by the late Dexter Coffin is a valuable addition to that area.

The Town again has been the fortunate recipient of several gifts of money which will do much for us. Chief

among these are gifts by Mr. William T. Baird, Mr. Dexter D. Coffin, and the Spaulding-Potter Trust. Mr. Baird's gift completes the Leo L. Osborne Memorial Pool project, and it is hoped t have a suitable plaque installed at this area this year. Mr. Coffin made an initial gift to the town to help establish the Elizabeth Dorr Coffin Memorial Park at the foot of the hill near the new Route #103B and the old Public Service Co. of N. H. pumping station. And shortly before his death, he made a further gift which will make this project one of great use and will open up to the town one of the most scenic areas in the state. Generously, the Spaulding-Potter Trust has given the town a gift to design or plan this area. The preliminary work at this point has been done under the direction of Mr. Charles Hill.

The highlights of our financial year include a reduction of our bonded debt of $9,500.00, a tax rate of $74.00 per $1,000.00 assessed valuation, and in spite of rising costs on every hand the Town is in good financial condition with Town debt $42,299.85. In this same area, the report of John E. Rich & Co. of Concord, who has examined our bookkeeping practices and who has recommended certain changes will be found on another page. We feel that this examination and resultant advice will bring further economies and will give us a modern system.

During the year representatives of the James E. Sewall Co. have been with us preparing a tax map of the town. This map, or series of maps, will give a complete visual inventory of the town. Your Board feels that it will be invaluable to the town for now and for succeeding generations. We hope to have the completed maps some time in April 1967. On this same subject, the Selectmen feel that in order to complete this program, and to enable the Selectmen to make proper use of this map, that it should be supplemented with a professional 100% tax appraisal program.

The Master Plan for the town, ably prepared by Shurcliff & Merrill is ready for distribution and we realize that in this study we have a blueprint for the future. While we may not see eye to eye in our own locality on all of the recommendations of this study, we do have the serious and true-tested results of experts in their line, and we feel that over the years the town will gain its worth from it.

Lower Village Cemetery has a new fence, a much needed improvement. Our Municipal Court has been moved from the Selectmen's Room, which did not measure up to State Standards for a Court Room, to new quarters in the I.O.O.F. Hall. The Selectmen's Room has four new modern fluorescent lights, which do much for that office. And the Library has a new basement area for the convenience and use of the public.

Other than the advice of the Rich Report and those contained in the Master Plan, the Selectmen recommend that the town consider in the near future the employment of one or more full time police officers to meet the growing problem of law-enforcement which confronts every town today.

Consensus of opinion is that our first Courtesy Town Meeting for our Non-Resident taxpayers held in August was a great success. We are sure that the Selectmen gained from this informal meeting, and it our hope that our taxpayers benefited by it. It is our opinion that this type of get-together should be held every year.

The Selectmen wish to acknowledge and express their appreciation to all those departments of the town and members of the same, who have made it possible for the town to progress in 1966.

To the Selectmen
of the Town of
Sunapee, New Hampshire

Gentlemen:

In accordance with the vote at your annual meeting in March, 1966, we were engaged to make a survey of your books and records and make the necessary revisions.

We made an extensive check of the records of the selectmen, the treasurer and the tax collector for the year 1965. From this analysis, we revised and installed the following records as of January 1, 1966.

1. Check Distribution Record
2. Cash Receipts Record
3. General Ledger - Including Revenue and Appropriation
4. General Journal

With the assistance of Mrs. Roach, we rewrote the transactions for the year 1966 and posted the transactions to the General Ledger which included revenue and appropriation accounts.

Each of the selectmen keeps a book which includes receipts and expenditures. These books serve a very definite purpose. In other words, it keeps them in very close contact with all revenue and expenditures.

We experienced some difficulty in reconciling the expenditures with the selectmen's records. The differences were attributed to handling of net payrolls, O. A. S. I. and retirement allocations.

We have prepared the following statements:

Exhibit A Balance Sheet as at December 31, 1966

Schedule A-1 Unappropriated Surplus as at December 31, 1966

Exhibit B Comparison of Estimated and Actual Revenue For the Year Ended December 31, 1966

Exhibit C Comparisons of Appropriation and Actual Expenditures For the Year Ended December 31, 1966

Comments on Financial Condition

1. In 1966 $3,000.00 of the 1965 unappropriated surplus was used to reduce the 1966 tax rate.
2. The Net Debt was decreased $10,310.13.
3. Actual revenue exceeded the estimated by $16,465.40.
4. Actual expenditures exceeded appropriation by $16,653.67.

Comments

We have been unable to prepare financial statements in accordance with good municipal procedures because of the following:

1. Inconsistant method of budgeting cash receipts, i. e., in some cases receipts were added to appropriation and in other cases the receipts were included in estimated revenue which is the proper method.

2. Expenditures were not classified in accordance with budget items

3. There should be a reclassification of Highway Department expenditures and budget items allocated to each of the major items.

4. The capabilities of the present bookkeeper are not being utilized to the fullest extent because the road agents, the police department and some other departments pay their own department bills upon receipt of one check from the town. It seems to us that the paying of bills is an essential function of the town bookkeeper.

5. Since the payrolls are handled in the manner described above, we are not sure that all government regulations are being complied with. In this respect the town has a definite responsibility.

6. We recognize the facts that procedures which have been followed year after year cannot be changed at once.

7. As indicated in Exhibit C, the town operated on a very close budget, Some of the departments overspent their appropriation.

8. The effectiveness of our work will not be fully recognized until the latter part of 1967.

9. We will assist Mrs. Roach in setting up the revenue and appropriation accounts as soon as the budget has been adopted.

10. As far as we know, the Town of Sunapee will be the first town in New Hampshire to have a complete double entry set of books which combine revenue and appropriation.

We appreciate the opportunity to be of assistance to the Town of Sunapee.

Respectfully submitted,

JOHN E. RICH

ENGINEER'S REPORT
SUNAPEE FIRE DEPARTMENT

From December 1, 1965 to November 30, 1966, your Fire Department answered a total of 20 alarms of which 17 were in the Town of Sunapee.

Actual losses by fire were remarkably low for the year. Only 2 fires were reported to the state with damage exceeding $100.00.

The Department is attempting to improve its training program and has sent some of its officers and men to fire schools and practices at Gilford and Newport. We have been very fortunate to have a part-time resident, Deputy Chief Arthur Corbett from Stoughton, Massachusetts, as a drill instructor at several practices and meetings. His help has been greatly appreciated and we hope to make further use of his services during the coming year.

Most of the exterior work is now completed at the new station in Georges Mills.

Of increasing concern to your engineers is the state of the present Gamewell Fire Alarm System originally installed in Sunapee around 1910. We intend to submit some definite recommendations concerning its expansion and use during the coming year.

Respectfully,

DAVID W. SHERBURNE, Chief
HENRY W. TROW
JOSEPH A. HILL
CLAUDE E. GARDNER

FIRE RECORD

Fire records are made by people—those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966).

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town or-

ganization carrying out programs of forest fire prevention, training and suppression with dedicated personnel.

2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres - - - a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A. M. and 5:00 P. M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.
2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important—instruct your children that matches are not play things.

TRULY — ONLY YOU CAN PREVENT FOREST FIRES

ABBOTT LIBRARY REPORT

For the Year Ending December 31, 1966

This year the partitions and ceiling were put up and wiring, plumbing and some shelves were put in the basement of the library and the walls were painted. When the appropriation was voted in March 1966 the library trustees furnished plans and specifications to all interested area contractors and bids were requested. The contract for the work was awarded to Arthur Hastings of Sunapee.

At the time the plans were drawn it was expected that this appropriation would cover the cost of completing the basement but as the cost of both labor and materials had risen to such an extent it was impossible to get a bid that also provided for covering the floors, building the bookstacks and the furnishings, for the amount appropriated so these remain to be provided.

The Friends of the Library paid for new lights installed in library and also have had 5 years of National Geographic bound by subject matter for our reference room. Mrs. Florence Rollins has been president of the organization this year.

As a member of the Statewide Library Development System we have received a grant of $100. in reference books. These have been ordered and will arrive soon. The Librarian attended another 10 week course offered by the University of New Hampshire as an extension course in Keene last Spring.

This year, for the first time there are six library trustees. In July the Librarian and Trustees sent a form letter to all taxpayers in the Town of Sunapee who are Summer residents only, to acquaint them with the services offered by our library. This courtesy was greatly appreciated and an increasing number of people made use of the library.

This year I have attended quarterly District Advisory Council meetings in Keene and quarterly book selection meetings held in various district libraries. The January meeting was held in our library.

I have also attended library meetings in Concord, Manchester and Keene with members of the board of trustees. I wish to express my appreciation to the Library Trustees for all the assistance they have given me.

Respectfully submitted,
MABEL S. DAVIES

First Grade Registration in June	16
Dental Clinics held	4
Heaf Test for T. B.	74
Physical Examinations by Dr. Walker	122
School Census — Birth to 18 years	452

In March I attended a meeting on Medicare at the N. H. Hospital and in October the Annual School Nurses Meeting.

In December through the sponsorship of the American Cancer Society two films were shown to senior girls and their mothers, women school personnel and guests. Dr. John Walker was present to answer any questions.

The Sunapee Woman's Club assisted by the Bartlett Fund financed the dental clinics with matching funds from the state. The Salvation Army also assisted with dental care.

The Lions Club has paid for eye examinations and glasses for needy children.

We have had a severe epidemic of mumps beginning with the opening of school and several cases of gastro-intestinal disease and the usual colds and sore throats.

I wish to thank Dr. Walker, Dr. Armen, all organizations, town officials and members of the Lake Sunapee Nursing Association for their interest and cooperation in our health program.

Respectfully submitted,

FLORENCE P. ROLLINS, R. N.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Sunapee:

Enrollment

The enrollment for the school year 1966-67 is 295 (a decrease of 2 over last year) - divided as follows:

Elementary - Grades 1- 6	153
Junior High - Grades 7- 8	58
Senior High - Grades 9-12	84

Total enrollment over the last four school years may be of interest:

1963-64	268
1964-65	285
1965-66	297
1966-67	295

Repairs - Improvements

The painting of the outside trim and a weatherproof treatment of the exterior surface were the principal building repairs. These followed an extensive repair project on the upper brick-stone and roof areas financed from the previous budget.

School Lunch Program

A new bake oven was obtained for the cafeteria kitchen. This was a much needed piece of equipment.

While on the subject of the School Lunch Program, some words of appreciation are long overdue for the efficient and effective work of Mrs. Reta Morse and her dedicated staff. For a number of years, Mrs. Morse has planned the menus, handled the purchasing, supervised the preparation and serving of the meals, and maintained the financial records. This is no small task when the Program operates on such a tight budget. Students pay 30 cents per meal and the federal government reimburses at the rate of 4 cents per meal.

The Sunapee Program is considered an outstanding one by State School Lunch officials.

Mrs. Morse has shown an interest beyond her immediate duties by active participation in regional, state, and national groups. She is a past president of the New Hampshire Food Service Association and has attended a number of national conventions. She is entitled to the praise of a grateful school and community.

Reading Improvement Program

Ten elementary students are benefitting from part-time reading improvement drills. These are being conducted with funds (approximately $600.) that Sunapee is eligible to receive under Title I of Public Law 89-10. The results of this limited special instruction may prove to warrant an expansion of such a program. Early help to improve reading proficiency should pay dividends.

Salary Schedule

The shortage of qualified teachers and salaries to be paid to teachers is not only of local concern—it is a problem both state and national in scope.

The Sunapee Salary Schedule has been revised in an attempt to remain competitive with the salaries paid eslewhere and as an aid in recruiting replacements — when necessary.

The base salary for the Bachelor's degree has been raised from $4,900. to $5,000. Next year this will not be an above-average figure. However, the Schedule revision does include a provision for raising the present teachers to their proper place on the Salary Schedule. In the past this has been done on a two or three year basis with a $500. maximum in any one year. Such a situation has tended to work to the disadvantage of the experienced teachers who continued to be "off schedule" as the salary figure for beginning teachers continued to climb.

Electronic Classroom

A budget item aimed at curriculum improvement calls for the installation of equipment for a language classroom to provide for audio-oral instruction in modern language. One-half of the estimated cost of $2,800. can be reimbursed under Title III of the National Defense Education Act. This equipment would be more flexible and mobile — as well as less expensive—than a so-called "language laboratory". It would serve the same purpose and is the type of installation presently being recommended by specialists in the foreign language field.

Respectfully submitted,

GORDON B. FLINT,

Superintendent of Schools

REPORT OF THE PRINCIPAL

SUNAPEE CENTRAL SCHOOL

Sunapee, New Hampshire

January 18, 1967

Superintendent Gordon B. Flint
Newport

Students are attending the following post secondary schools: Plymouth State College (4), University of New Hampshire (1), Dartmouth College (1), Regis College (1), New Hampshire Vocational Institute (1). Six members of the class are in the armed services.

I would like to thank the family and friends of the late Olney Nutting for their contributions in his name to the Sunapee Central School Athletic Fund. As a reslut of their generousity, new tumbling mats have been purchased.

The following students have been elected to membership in the Sunapee High School Honor Society for 1966-1967: Christine Alexander, Sally Wiggins, Brenda Wright, Catherine Alexander, William Bannister, Jean MacWilliams, Beverly Morse, Wanda Rollins, Joan Cutting, Donna Gallup and Jolyon Johnson.

The Honor Society has proposed that its award which is presented annually at commencement to an outstanding member of the eighth grade will henceforth be called the Nathan Johnson Memorial Award.

Again I urge the parents and friends to visit the school and its faculty. There is no substitute for a personal visit.

Respectfully,

DAVID W. SHERBURNE

REPORT OF TEACHER CONSULTANT

Last year's Title I project (P.L. 89-10, ESEA) did not permit much beyond the purchase of some special projection equipment. Due to its late arrival, there was hardly sufficient time for the elementary staff to become aware of the techniques and possibilities for classroom use. Our attempts in this year's follow-up of the project, however, resulted in securing a part-time elementary teacher, Mrs. Francis Nolin to work with a small number of elementary children (particularly in reading), using these special materials and applying her knowledge and prior experience in programs similar to this. While it is still early to determine the degree of success, it is felt that attention to some reading problems for some children is more than would have been possible without the program. Continuous evaluation and cooperative staff efforts will determine the value of the project.

Some Sunapee youngsters were able to enroll in Newport's 1966 Summer School Program, made possible for the first time through Title I funds, and thus free of any tuition costs to parents. Classes at all levels of reading and mathematics were offered at the elementary grades for six weeks. Mr. Frank Hammond of the Sunapee staff and Mrs. Carol Lord, formerly of the Sunapee staff, were among the instructors in this total supervisory union project. It is hoped that a similar program will be offered during the summer of 1967.

Several high school science students enrolled in the evening course, "An Introduction to Biochemistry" taught for the third year by Mr. Clayton E. Fisher of New London. Enrollment has always been voluntary and the benefits derived have proved valuable for those students seeking further knowledge in a field not usually offered in a regular high school schedule.

As a follow-up of the union-wide extension course in curriculum development for teachers, a new social studies program has been introduced at the early primary grades. While no pograms or textbooks are necessarily designed to fit the needs of all schools, it is satisfying to know that children are not denied the possibilities of improved cur-

ricular offerings, even when these must be adapted or modified to meet differing circumstances and communities. This has been true of such programs as "modern" math, science, and reading.

With the ever increasing possibility of a totally staffed and functioning Sullivan County Community Service, located in a special suite of rooms at the Claremont Hospital, school and community personnel can look forward to a number of special services relating to learning difficulties, personal and social adjustments, and general mental health.

Sincere appreciation is expressed to those who have assisted in maintaining, supporting, and extending these and other services aimed at providing the best educational opportunities for all.
